IMPORTANT NEWS

NEXT MEETING:

February 10th, 11:30 AM @ Pizza Ranch on 41st Street

- Shannon Ausen (City of Sioux Falls) and Travis Dressen (SDDOT) will discuss the 2015 construction program.

NEW MEMBERS:

- Meghan Danielson, SDSU

PRESIDENT'S COLUMN

BY RYAN JOHNSON-PE

Hello Eastern Chapter Members,

February is an extremely busy time of year for the Chapter. Events include -

- ◆ "Engineering with Leo" on February 6 from 5:00 to 8:00 at the Washington Pavilion's Kirby Science & Discovery Center
- ◆ STEM Girls on February 17, 18, and 19, from 3:45 to 5:00pm at George McGovern (Tuesday), Whittier (Wednesday), Edison (Thursday) Middle Schools in Sioux Falls, SD
- ◆ Math Counts on February 19 at Morningside Community Center.

The finale is the Awards Banquet on February 28th from 5:30 to 9:30 in the Starlite Ballroom on the top floor of the Downtown Holliday Inn. Erin Steever and Wes Philips have put together a packed schedule which includes a short presentation by Mayor Mike Huether and entertainment by REZA, an illusionist from Brookings SD. Let's not forget, the main focus of the event is to celebrate and recognize outstanding engineers and projects in Eastern South Dakota. Please make every effort to join in the fun, eat great food, and support our chapter!

Our next monthly meeting will be February 10th from 12:00 to 1:00 at the 41st Street Pizza Ranch. Shannon Ausen from the City of Sioux Falls and Travis Dressen from the South Dakota Department of Transportation will present on their respective Capital Improvement

Programs. This has been a well-attended meeting in the past as it is great opportunity to hear and see firsthand upcoming City/DOT projects.

Thanks to Deff Dunn, Principal Water Engineer for the City of Sioux Falls who presented at the last meeting on the on the City's water main condition assessment project. Jeff recently presented this project at the national AWWA conference.

The March monthly meeting will be held at Hancock Concrete to see the precast pipe manufacturing process. Additional information will be provided in the next newsletter.

Please help me in welcoming new member Meghan Danielson from SDSU. Membership is strong and continues to grow!

Lastly, we will be holding elections for the Eastern Chapter Vice President and Chapter Director (1st and 2nd Term) positions at the February meeting. If you are interested or know of someone who would make a great fit for this position, please contact me at rjohnson@siouxfalls.org or 367-8641.

Thank you!

Ryan Johnson

TREASURER'S REPORT

BY LANCE WEATHERLY, PE

	Balance as of	2/5/2015

Eastern Chapter Hockey Outing

March 26, 2015, 7:05PM

Denny Sanford Premier Center

2015 Annual Conference

April 8, 2015

Ramkota Hotel, Pierre

THURSDAY MARCH 26TH

@ 7:05 P.M.

SDES Hockey Outing

Come out and cheer on the Herd as they battle the Fargo Force in their new home at the Denny Sanford Premier Center. The Eastern Chapter will purchase the tickets for all members that attend. Families are encouraged to attend and ticket prices will be at a reduced group rate. Bring a new member and be eligible for a \$50 raffle prize to be shared between you and your guest. RSVP to glaber@stockwellengineers.com

To add a calendar item, please contact Josh Peterson at JPeterson@siouxfalls.org

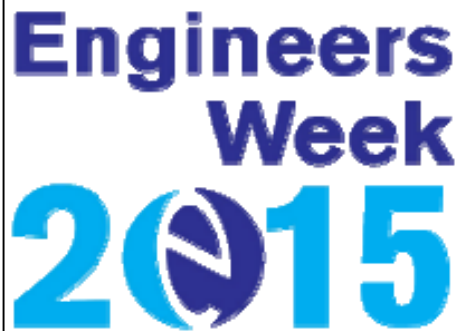

MATHCOUNTS VOLUNTEERS NEEDED—PHIL GUNDAVALDSON, PE

A couple volunteers are still needed to help out with the MATHCOUNTS competition. The competition will be held at Morningside Community Center in Sioux Falls which is connected to Harvey Dunn Elementary School. The address is 2400 S. Bahnson Avenue and the competition will be on Thursday, February 19, 2015. Volunteers are needed from approximately 2:30 to 7:00 to help with the registration table, distributing tests, and scoring. If you are not available for the entire competition, please consider helping out for a portion of it. I encourage those who have never attended a MATHCOUNTS competition to volunteer and witness the mathematical and reasoning skills of the mathletes. Please contact me if you are available to help out or have any questions.

Phil Gundvaldson
 ph. 605-271-5527
philg@infrastructuredg.com

 The logo for MATHCOUNTS, with "MATH" in white and "COUNTS" in red, all in a bold, sans-serif font.

CELEBRATING E-WEEK IN FEBRUARY—ERIN STEEVER, PE

 The logo for Engineers Week 2015. "Engineers Week" is in blue, and "2015" is in a larger blue font with a stylized gear or wheel integrated into the zero.

Free First Fridays – In collaboration with the Kirby Science and Discovery Center (KSDC) at the Washington Pavilion, in Sioux Falls, SD, SDES volunteers will celebrate Leonardo da Vinci with over 300 patrons through their “Engineering with Leo” experience. While most of his inventions never made it off the page he drew them on, we know that he was looking into the future at machines that would make work easier and life better for each of us! An engineer with SDES will walk the audience through their current day experiences in the field as an engineer, while other SDES volunteers will assist KSDC staff with multiple activity stations. Simple machines that make up a bucket-wheel excavator, skateboard, water lift and spring scale (wheel/axel), thread cutter (wedge), tape dispenser and da Vinci’s catapult (levers/pulleys) to name a few will be discovered and incorporated into a Guessing Game. This event will take place on February 6, 2015 from 5:00 to 8:00 pm.

STEM Girls – Encouraging middle school girls to pursue STEM careers, our theme this year plays on Disney’s latest animation, *Big Hero 6*. We’ll be at three underserved middle schools in Sioux Falls, SD to build, test and re-design paper plate “Speed Racers” tying in with the with supersonic fast mag-lev bike that the female industrial technology and mechanical engineering student GoGo Tomago’s character develops in the movie. We’ll then move on to our main build with Baymax as the inspiration. Baymax is a home health aide robot and SDES volunteers will assist the girls in building a “junk drawer robot” using Popsicle sticks, syringes and pencil erasers to make a Hydraulic Gripper Robot. STEM Girls is part of an after-school program run through the Kirby Science and Discovery Center. SDES develops an engineering themed plan each February, walk the girls through our development as female engineers, and provide a pathway for the students to ask questions and see themselves in engineering career paths. Our Hydraulic Gripper Robot is being provided by the South Dakota State University Extension and 4-H STEM program. Inspiration for the “Speed Racer” is from www.howtoons.com. STEM Girls will take place February 17-19, 2015 from 3:45 to 5:00pm at George McGovern (Tuesday), Whittier (Wednesday), Edison (Thursday) Middle Schools in Sioux Falls, SD.

Volunteers are encouraged to contact Erin Steever at erins@bannerassociates.com or 855-323-6342 to secure a time, and be notified of planning/demonstration meetings held ahead of the events.

SCHOLARSHIP WINNERS—LANCE MAYER, PE

SCHOLARSHIPS

As part of the 2015 scholarship program, SDES-Eastern Chapter awarded three \$2000 Engineering Scholarships out of over 30 applicants to the following high school seniors:

Nicholas Zolnowsky is ranked 10th in his class at Parkston High School. Nicholas has been involved in many school activities and receiving a number of awards including: National Honor Society, Varsity Cross Country (Hero Award, Coaches Award, and MVP), Basketball, Track (MVP), and Swimming (Male Swimmer of the Year). From his involvement in athletics and the National Honors Society, to his ability to work through adversity, his peers and advisors have recognized Nicholas as a natural leader and role model who leads by example.

Throughout high school, Nicholas has received the most satisfaction from his community service and mission work which included volunteering his time to help with a church remodel and assisting those in need with “fixing up” their home.

Nicholas gained interest in Engineering when he began working for a local construction crew a few years ago and started looking into career options along those lines. “When I read about Civil Engineering, I knew it was a perfect fit.” He would like to work on difficult projects and oversee them to ensure they are built to plan with excellent functionality and safety. As a Civil Engineer Nicholas knows he can make a difference while enjoying the work he does. Nicholas plans to attend South Dakota State University and Major in Civil Engineering.

Alex Spies, attending Watertown High School, stood out academically while also being involved in numerous school and community activities. These activities include: Boy Scouts (Senior Patrol Leader, Life Scout – on track to be an Eagle Scout), Teens for Christ (President), Math Counts, Peer Helpers, BEST –Boosting Engineering Science Technology- Robotics (Marketing Group Lead, Notebook and Design Documenter, Chief Designer, and Team Leader), and National Honor Society.

The most satisfying achievement for Alex has been his role on the BEST - Boosting Engineering Science Technology – Team. During his 4 years on the team, he was able to progress through the ranks, ultimately leading the team to winning multiple awards. Through it all, this experience has allowed Alex to explore different career options, work with a team, make friends, lead, and become a better person.

As long as he can remember, Alex has always been interested in becoming an Engineer and, as a young child, he would tell people that he wanted to go to the “School of Minds”. Through Lego League during his elementary and middle school days, to his present participation with the BEST Robotics Team, he learned that not only did he enjoy solving problems and finding new ways to accomplish tasks, he was good at it. “It’s not just about creating something; it’s also about marketing and talking to people.” Alex plans to attend South Dakota School of Mines & Technology and major in Mechanical Engineering.

Jamison French has excelled academically as a senior at Brookings High School. His activities include: Students Against Destructive Decisions, German Club, Marching Band, Concert Band, Multicultural Club (Vice-President), Feminist Club Officer, Art Club, Soccer, Science Olympiad, and Boy Scouts (Assistant Senior Patrol Leader).

Jamison’s Eagle Scout Project has been his most satisfying achievement. This project was dedicated to providing the people of Ninh Thuan, the second poorest province in Southeastern Vietnam, with gently used clothing. He spent countless hours collecting, sorting, packing, and transferring clothes through this project. He also started a fundraiser in which the money was used to purchase duffle bags to ship the clothes to Vietnam through the Catalyst Foundation. “The satisfaction comes from knowing that I’m helping my cultural community with some essential needs.”

Jamison has always been interested in how machines are assembled and work as well as being intrigued by innovation concepts of energy efficiency and compactness. He recently attended a Youth Engineering Adventure Camp on the campus of South Dakota State University where he was able to further his interests in Mechanical Engineering. Jamison plans to attend South Dakota State University and Major in Mechanical Engineering.

In 2014, the Eastern Chapter sponsored two \$1000 Engineering Scholarships at South Dakota State University. To qualify, students must be entering their junior or senior year and major under the College of Engineering. The two recipients selected by SDSU faculty were **James Hisek**, majoring in General Engineering (leaning towards Civil), and **John Miller**, majoring in Operations Management and German.

Also in 2014, the Eastern Chapter sponsored an \$800 Engineering Scholarship which was made available through a permanent endowed fund held within the South Dakota Community Foundation. **Emily Lawrenson** was the recipient selected by the Scholarship Committee and she plans to major in Civil Engineering at South Dakota State University.

Congratulations to all of this year’s SDES - Eastern Chapter Scholarship Recipients!

HELP US COMPLETE THE LIST OF PAST WINNERS— BRAD LUDENS, PE

A listing of previous award winners that we have on record for the Eastern Chapter (including the old Southeast Chapter and Northeast Chapter) are shown below. If you see any errors or omissions, please contact Brad Ludens at 367-8627 or bludens@siouxfalls.org. We would love to have updated information for this year's Awards Banquet on February 28. Thanks for your help!

Engineer of the Year

Eastern Chapter

2013: Allen Rude
2012: Orlin Jibben
2011: Jeff Christensen
2010: Bruce Card

SE/NE Chapter

2009: Chad Huwe (SE)

 Sioux Falls, SD 57101

Dear Patrick:

Thank you for your gift to South Dakota State University.

We are grateful for the confidence you have shown by choosing SDSU as a beneficiary of your charitable giving. In 2014, more than 10,000 different alumni, friends and companies made a financial investment in our university. We are humbled by the private support that impacts greatness at SDSU.

Again, thanks for your gift to the state's largest and most-comprehensive institution of higher learning.

Sincerely,

Steve Erpenbach
 President and CEO, SDSU Foundation

Fax: 605-367-4310

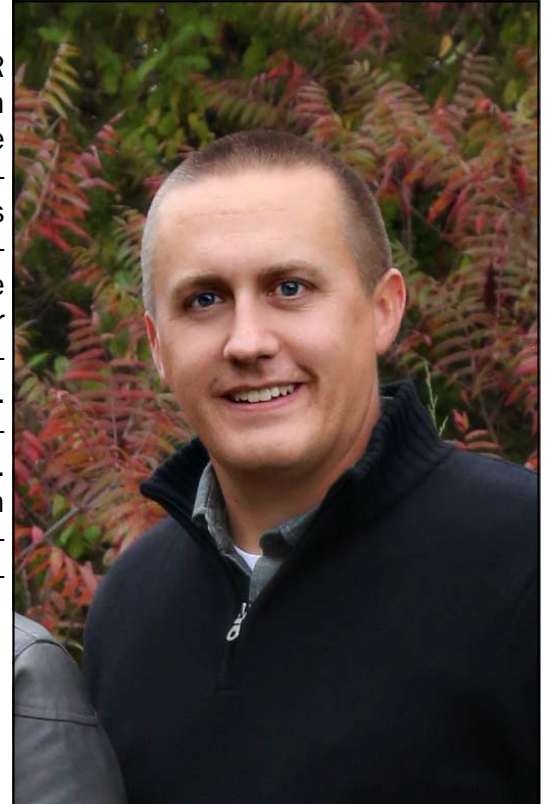

ANDY BERG, PE

Degree:
SDSM&T, B.S. in Civil Engineering

Favorite Quote:
"When it pours, we reign." - Unofficial
Drainage Team Motto ;)

A brief history... I was born and raised in Baltic, SD. Attended Baltic High School and received my Civil Engineering Degree from SDSM&T.

I worked for Howard R Green Company from 2000-2006. I joined the City of Sioux Falls Engineering team in 2007 as the Principal Drainage Engineer. Our Drainage Team is responsible for the conveyance of stormwater throughout the city. We also manage the regional BMP pond system. Just this year, we began management of the recently updated Flood Control system within the city.

A LITTLE BIT MORE ABOUT OUR MEMBER OF THE MONTH:

Family: Wife: Laura; Kids: Claire (8), Ben (4)

Hometown: Baltic, SD

Job title and years with firm: Principal Engineer, 8 years.

Favorite Room in Your House: Wood Shop. Not in the house, but I am most productive here and also allows me to teach the kids how to use tools and help me build little projects.

Normal Breakfast: Coffee and whatever there is time for on the way out the door.

Last CD Purchased: Can't remember...probably Linkin Park.

Last DVD Purchased: Despicable Me 2??

Hobbies: In order of preference... 1. Golf 2. Woodworking 3. Waterfowl Hunting

Best Personality Trait: I'm fairly calm. I don't let things get under my skin. This is a must when working with the public regarding drainage concerns.

Pet peeves: People who start a complaint by saying, "I'm not an engineer but..."

Favorite beverage: Winter: Guinness Summer: Blue Moon

Favorite TV Show: Big Bang Theory

Favorite Season: Winter...very few drainage issues

What made you want to be an engineer? It ran in the family. Three uncles, four cousins and a brother that are all engineers. Then I married into a father-in-law, two brothers-in-law and a sister-in-law who are all engineers as well. Exciting dinner conversations over the holidays!

Describe a significant event in your professional life. Taking this job with the City. While the amount of design work is greatly reduced, I get to rely heavily on my engineering background to work with residents. Helping them better understand our drainage systems and how they can help themselves to protect their property.

What are you looking forward to in the next year? A drought...

I hate it when... people aren't really listening, they are just waiting for you to stop talking so they can tell you what they feel is important.

Where is your favorite place and why? I'm still partial to the Black Hills. If you can get away from the people and just enjoy the fresh air and natural scenery it is tough to beat.

We are on the web
