## PRESIDENT'S COLUMN

BY JON WIEGAND—PE, PTOE

Welcome to February! While the shortest month in terms of days, it usually seems to feel like the longest as winter hangs on and work deadlines tend to converge as we get ready for the summer. However, to maybe help break up the last few weeks of winter, there are a number of SDES items coming up that we would like to remind you of:

- E-Week – February 18-24, 2018
- Super 2<sup>nd</sup> Saturdays at Washington Pavilion – February 10, 2018, from 10 a.m. to 2 p.m.
- MATHCOUNTS – February 22, 2018, at 2:00 p.m.; Southeast Technical Institute
- Serving breakfast at The Banquet – February 21, 2018
- Annual SDES Awards Banquet – February 24, 2018, at the Holiday Inn City Centre; Casino Night
- 2018 Annual Conference – April 4-6, 2018, at the Holiday Inn City Centre

If you are interested in volunteering for any of these events, please see the respective ad in the newsletter and contact the respective chairperson. We will also be discussing these events one more time at the upcoming chapter meeting.

There have been a number of new members since our last meeting. Please welcome the following to SDES:

- Lori Faber-Woodward
- Karin Lang
- Freddy Moran
- Jacob Morris
- Lance Nolz
- Shawn Vanhove

Our next meeting is Tuesday, February 13, 2018 at the 41<sup>st</sup> Street Pizza Ranch. The meeting starts at 11:30 with lunch and the business meeting starts at 12 noon. Becky Baker with KLJ will be presenting on environmental requirements for engineering projects. As a reminder, if you are unable to attend in person but would like to participate in the meetings, please login through WebEx. Login instructions are provided within each newsletter.

And before closing, I would like to thank DJ Buthe for presenting last month on the Minnehaha County Bridge System. It was great to hear the success they are having with a proactive approach to maintaining their bridge system.

See everyone on Tuesday, February 13, at Pizza Ranch.

-Jon

## E-WEEK OUTREACH: KIRBY SCIENCE DISCOVERY CENTER

ERIN STEEVER, PE

SDES is again teaming with the Kirby Science Discovery Center (KSDC) in February to celebrate National Engineers Week (E-Week).

On February 10th between 10am and 2pm, volunteers will provide an engaging demonstration and activities to introduce engineering principals to 450 patrons expected to attend the special E-Week Super Second Saturday event.

The demonstration will showcase engineering through popular Disney Pixar (R) film clips. Three engineer-themed activities will provide hand's on learning to coincide with the demonstration.

- Station 1 includes a discovery of the effects of friction on a road, think of Mater driving over that first pavement project from Lightning McQueen.
- Station 2 will move into aviation with paper airplanes following footage from the movie Planes.
- Station 3 will reach patrons at a more challenging level by bringing in the KSDC's tornado booth to build and test structures to resist tornadoes. The Dream Big film will be brought back to The Wells Fargo Cine-dome, again showcasing engineering. A portion of the film featuring the Shanghai Tower's unique twist of 120 degrees for minimizing wind loads on the 2,073 ft tower will help introduce the impact of wind on tall structures for the tornado activity.

We still have a few volunteer slots available. If you are interested in becoming involved, please contact Erin Steever at [erins@bannerassociates.com](mailto:erins@bannerassociates.com). We also encourage all members to bring their families, friends, and neighbors out to this fun event. Standard admission applies to all except the event volunteers (find out more at <https://www.washingtonpavilion.org/plan-your-visit/rates>).

## FIRST TECH CHALLENGE TEAM UPDATE SPONSORED BY SDES

Greetings, from *FIRST* Tech Challenge team, Fellowship of the Loose Screws! We are a high school level group of kids who build and program a 40 pound robot. Kids can do amazing things, including becoming engineers, and thousands around the world are doing just that- even right here in Sioux Falls, South Dakota. Through the series of robotics programs by *FIRST*, (For Inspiration and Recognition of Science and Technology) younger kids are building with LEGOs, and older kids with power tools, 3D printed parts, and machined aluminum, navigated by gyroscopic, ultrasonic, and camera vision sensors- all the while learning skills that will help them succeed in a multitude of fields. *FIRST* builds the innovators of tomorrow, and if you would like to check out what some of these young engineers are up to, swing by the *FIRST* LEGO League South Dakota State Championship on January 27th at Augustana University. Any interest in helping or meeting the Fellowship, get in contact with us at [fellowshiploosescrews@gmail.com](mailto:fellowshiploosescrews@gmail.com).

Get involved in the future- we certainly have!

### A little more about me....

I am a born and raised, East River, South Dakotan. From an early age, I knew I was going to attend SDSU, I just didn't know it was going to be for 6 years! While there, I received a bachelors in Civil Engineering and Mathematics and then decided to become even nerdier and get my masters in Mathematics. While in college I met my husband and through our years together we have welcomed a dog Bailey (5) and a daughter Hailey (1) into our lives. My special accomplishments include only snoozing my alarm once and being known as the lady that always has candy in her office. I have a great career that started and continues at Sayre Associates.

**Family:** Husband- Jeff and Daughter - Hailey

**Hometown:** Hartford, SD

**My Normal Breakfast:** Cereal

**Last CD Purchased:** Who purchases CDs anymore? :)

**Last DVD Purchased:** Guardians of the Galaxy, Vol. 2

**Hobbies:** Reading, Playing with my dog, being a Kleenex for my daughter.

**Pets:** Chocolate Lab, Bailey

**Pet peeves:** Slow Walking in Stores.

**Favorite TV Show:** Friends

**People may not know about me..** I'm left handed. It's true!

**What made you want to be an engineer?** My love of math.

**What do you like best about being an engineer?** There are no 2 projects that are exactly alike.

**Describe an achievement from the past year you are proud of.** The birth of my daughter.

**Favorite Place to Visit and Why:** Disney World! I'm a kid at heart.
